

Write any particular instructions here.

SAIL PLAN SIZES, GAFFER.

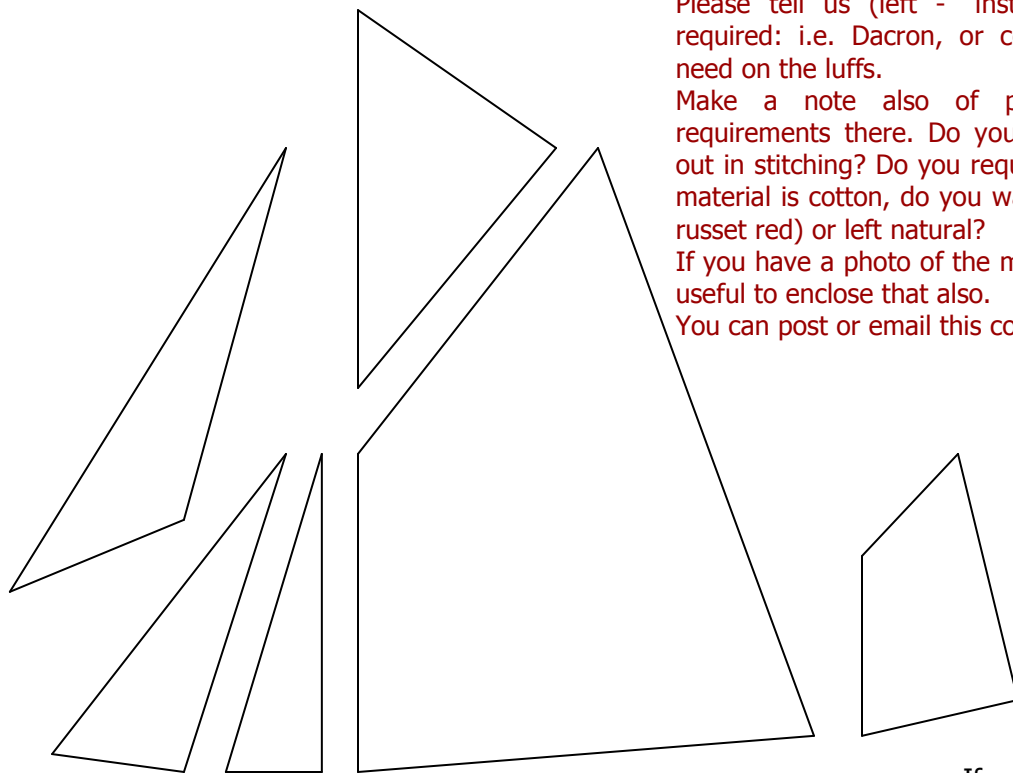

Use this page and print it out filling in the sizes you require your special sails making. Some of the sails may not be required, such as the tops'l, or the mizzen, and if so simply cross out those not required.

Please tell us (left - "instructions") the sailcloth type required: i.e. Dacron, or cotton. Also what fixings you need on the luffs.

Make a note also of particular sail features and requirements there. Do you require the "seams" picking out in stitching? Do you require a bolt rope edging? If the material is cotton, do you want it dyed a colour (usually a russet red) or left natural?

If you have a photo of the model (a side view) it might be useful to enclose that also.

You can post or email this completed form to us.

If you aren't making an order and only require a price at this point then put a tick in this box.

Your details.

Write your name, address, telephone & email underneath here.

If you simply require a bermudan suit then please refer to the racing sails page where there is a "form" for that.
